

The screenshot displays the USGS The National Map viewer interface. At the top, the USGS logo is on the left, and 'The National Map' logo is on the right. Below the logos, the text 'TNM Download (v1.0)' is followed by navigation links: 'How to', 'Start Over', 'Custom Views -', and 'Share Link'. A 'Contact Us' link is in the top right corner.

The interface is divided into two main sections: 'Datasets' and 'Products'. The 'Products' section is active, showing 'Advanced Search Options' with a 'Find Products' button. Under 'Show Availability', there are two 'Product Search Filter' panels. The top panel has filters for 'All Subcategories' (with 'US Topo Current' selected), 'Data Extent' (7.5 x 7.5 minute), and 'File Format' (GeoPDF/Geospatial PDF). The bottom panel has filters for 'Data Extent' (7.5 x 7.5 minute) and 'File Format' (FileGDB 10.1 selected). Both panels include an 'Availability Legend' with color-coded boxes for publication years (2014-2017) and a 'Description' link.

On the right side, there are map controls: 'Use Map' (checked), 'Map Indices' (1 Degree, 15 Minute, 7.5 Minute, All), and a search bar with 'Address/Place' and 'Search location.' fields, 'Go', and 'Clear' buttons. Below the search bar is a topographic map of a region with a blue rectangular selection box. The map includes a scale bar (0-3 km, 0-1 mi) and coordinates (Lat/Lng: 37.8693, -119.5269). The bottom right corner of the map area says 'Leaflet | Powered by Esri | The National Map'.

The National Map
